EHR migrations for 50+ users	international SaaS sites implemented	vehicles rolled onto Samsara and Knox	people onboarded a month	certified, 2024

SUMMARY

PMP certified implementation lead who takes new systems from contract to go live and makes them stick. I led three EHR migrations for 50+ users, coordinated SaaS implementations across 20+ international sites, rolled Samsara telematics and Knox device management onto a 150 vehicle fleet, and shaped a TMS rollout while managing projects fully remote. I map the process, train the people, track every risk and stay on it until users are running without me.

CORE COMPETENCIES
