0 to 150	$600K	$2.5M	50+	20+
vehicle fleet launched in under 4 months	monthly revenue in a new market	daily operation run at Amazon	users moved through 3 EHR migrations	international SaaS sites implemented

SUMMARY

PMP certified project manager who gets handed the launch with no playbook and delivers it. I took a new Atlanta market from an empty building to a 150 vehicle, $600K a month operation in under four months, ran a $2.5M daily operation through Amazon peak, led three EHR migrations and delivered SaaS implementations across 20+ international sites. Two years managing projects fully remote. I own scope, schedule, risk and stakeholders from kickoff to go live, then write the SOPs so it runs without me.
